## Technical

The W-150 Manual is a machine that can grow with your needs. Field retrofitable automation turns this manual machine into a W-150 Standard Automatic. This allows all the labor savings of a automatic machine with the minimal capital outlay. When automated all the fast setup features of a manual machine are retained. When changing from top to face no changing of the grinding wheel is required. Precision performance, versatility, fast setup, easy to learn operation, and low maintenance makes this the perfect machine for your manual top or face sharpening requirements.
