## Technical

The W-150 Standard Automatic Saw Sharpener offers many advantages. The air powered saw clamp holds the saw precisely while the hydraulic controlled feed gives a smooth consistent grind rate thus improving saw accuracy, sharpness, and finish while at the same time reducing grinding wheel costs. The compact design uses minimal floor space but allows sharpening of saws as large as 36" diameter. The W-150 Standard Automatic provides reduced labor and increased quality for a very affordable capital cost.
